GreenerAge

NEWSLETTER #5

APRIL 2023

IN THE SPOTLIGHT

GREENERAGE CONSORTIUM MET IN KATOWICE, POLAND!

The GreenerAge consortium gathered for the third hybrid Transnational Project Meeting on the 28th and 29th of March. Hosted by LAB60+ in Katowice, Poland, the consortium discussed the work done so far and the next steps.

We have completed the peer review of **National Summaries** and started the Compendium work.

Meanwhile, we are developing an **Educational Online Platform**. It is targeted at 55+ adults that want to learn more about environment and climate change and how they can contribute to a more sustainable world with practical actions.

We are also developing a **Trainer Manual** to accompany the Learning Platform and Compendium, with background knowledge, workshop concepts for the materials, and a guide for Adults Educators.

At the end of 2023, **workshops** will be organized to evaluate the Compendium, the beta version of the Platform, and the Trainer Manual.

To disseminate GreenerAge project, we signed up for the **Grundtvig Award call for 2023**, organized by EAEA – European Association for the Education of Adults, and related to Adult Learning and the Green Transition.

WHAT WE HAVE BEEN DOING

“How will I contribute to a greener future?”

We went to ask to citizens from the partners countries, and they gave us important insights about the topic!

GreenerAge was presented in Portugal

The project was presented during an event promoted by the Portuguese National Agency for Education and Training.
