Accessibility Statement

We at GreenerAge aim for an inclusive design of our website. Our website should be easy to understand, easy to use and accessible for all people including those with disabilities. GreenerAge uses the international standard accessibility guidelines for small companies within the EU-market as its guiding principle.

Despite our best efforts to make all pages and content on <https://greenerage.eu/> accessible, some items may not yet be fully adapted to the strictest accessibility standards. This may be a result of not having found or identified the most appropriate solution. GreenerAge is aware that more is needed to make the website accessible for all and we apologize for any inconvenience.

If you have trouble viewing or navigating the content on this website, or discover any content, feature, or functionality that you believe is not accessible to those with disabilities, please don't hesitate to contact Luís Dias of our team at info@shine2.eu.
